SOON COMMERCIALY AVAILABLE

INN	Quality	DMF, CEP
Duloxetine	EP	CEP (2024 Q4)
Levocetirizine diHCl	EP	CEP (2025 Q1)

All the activities (development, testing, production) concerning the active pharmaceutical ingredients listed in the API product catalog are performed in countries where such activities are not prevented by third parties' rights, especially patent rights, and in compliance with the IP laws of the respective country. None of the products will be offered / supplied to countries in which these activities might be prevented by valid IP rights. However, the final legal responsibility lies exclusively on the buyer. Egis does explicitly exclude any and all legal responsibility for the correctness and for the use of the information in the API product catalog.

DRUG SUBSTANCE DEVELOPMENT LIST

ADVANCED STAGE

Kilolab process or pilot scale up is ready, including PAR measurements at least for the last two chemical steps and the DS purification step.
Where we have EGIS own DS form, we have originator's form too.
Documentation is available in Hungarian.
