

SC AMYLON SA
Sos. Alba Iulia, Nr.70
Sibiu - Romania
Tel.: +40269/217722
Fax: +40269/216044

Founded in July 28, 1920, SC Amylon Sibiu is one of the oldest factories producing glucose from Romania. The company was founded from the beginning as a joint-stock company, being recognized nationally for the quality of its products.

The company functioned under this form of organization until 1948, when, as a result of nationalization, became State property. In 1990, SC Amylon was established as joint-stock company, the capital of the company being owned by the Romanian State, following in May 8, 1996, the company to be privatized, having majority private capital. Since September 2002, SC Amylon SA Sibiu, was taken over by Boromir Group.

The mission and objectives of the company consist in maintaining and promoting the tradition and quality of all products and services, and at the same time diversifying the range of products offered to our collaborators.

Following closely the domestic and international market demands, our company offers its current and potential collaborators - outside consecrated products (solid and liquid glucose) - new products, such as corn germ, gluten, starch, glucose tablets with the aroma of lemon and mint, and Turkish delights.

In 2009, the company acquired Feleacul's production lines it has updated and modernized, thus producing: pufarin (puffed wheat), halva, Turkish delights, sweetmeats, jellies.

Starting with the year 2015 the company sells and produces a wide range of flour-based products: gingerbread, gluten biscuits and sugar biscuits, biscuit with cream, grissini, croquettes, pasta from soft wheat and durum wheat.
