Dear Sir or Madam,

Abramczyk Ltd. is a family owned enterprise located in the northern part of Poland, in the city of Bydgoszcz. For over 20 years the Company has supplied European and non-European consumers with frozen fish and seafood from around the world. Since its inception in 1989, the Abramczyk company has come a long way - from doing business in the local market exclusively, attaining the current leading position in the manufacturing and sale of frozen fish products in Poland, and a significant position in the European market.

In the past the primary focus of ABRAMCZYK Ltd. was the HoReCa market, but recent years have shown a gradual shift to retail chains. Our products are available in the markets of other Eastern and Western European countries, as well as for example, the United Arab Emirates. Each export contract is carried out to the highest standards of professional performance.

Abramczyk company is a reliable partner with significant potential. Our strength is our location in a very agricultural area. Almost 2/3 of the food production of the region could be exported. This is why we are looking for reliable business partners in the Republic Of Korea. Our vision is to create two separate business divisions. First would be dedicated to food manufacturers. We are ready to export high quality powdered milk, coffee creamers, a variety of liquid dairy products, as well as casein used in confectionery, among others. We also have access to large quantities of chicken, pork and beef meat. Second unit would focus on high-quality retail assortment which Poland is famous for. We could offer a wide range of chocolate and confectionery products including premium chocolates, dry fruit chocolates, liqueur chocolates, among others. Our passionate, hard-working team; clear strategy; effective management, and what is most important: close relations with business partners allow the Abramczyk company to consistently pursue its growth strategy.

I would be pleased to present our latest offer to you. Should you have any questions or doubts please do not hesitate to contact me directly on [export.asia@abramczyk.pl](mailto:export.asia@abramczyk.pl). Please feel free to visit our website [www.abramczyk.eu](http://www.abramczyk.eu)

Yours faithfully,  
Rimvydas Kuodys
