## OFFICIAL PARTICIPATION

### FLANDERS EXPORT PROMOTION AGENCY

Regentlaan 40  
B -1000 BRUSSELS  
BELGIUM  
Tel. ++32 2 504 87 11  
Fax ++32 2 504 88 99  
info@export.vlaanderen.be  
www.export.vlaanderen.be

#### Delegate:

**Isabel Van Waes**  
Area-manager APAC

#### Activities:

Export Vlaanderen (Flanders Export Promotion Agency) is the Flemish public agency responsible for promoting exports of products and services from Flanders.

In this capacity, Export Vlaanderen advises, supports and stimulates Flemish companies in their export activities. Export Vlaanderen has a unique network of more than 80 economic and commercial representatives throughout the world.

They are your contact with Flemish businessmen and will be happy to provide you with information on importing products or services from Flanders.

Do not hesitate to contact them !

## ETS F. VERDEYEN

Industrieweg Roosveld  
B - 3400 Landen  
Tel. ++32 11 88 09 00  
Fax ++32 11 83 22 22  
www.vlux.com  
cvh@vlux.com

### **Delegate:**

**Christiaan Van Herreweghe,**  
**Sales Director**

### **Activities:**

The Vlux group combines two companies, Verdeyen and Ombret Plastics, each very active in its own sector. The synergy of these particular skills is very efficient in the exterior lighting sector.

VERDEYEN, specialised in extrusion, injection and thermoforming of plastics as well as polyester compression moulding, is one of the world's leading manufacturers of industrial lightfittings. With 90% of its turnover exported to more than 60 countries, a preferred partner for weatherproof lightfittings.

Ombret Plastics develops and commercializes SMC and produces glass reinforced polyester and vynilester.

2. Diamond Centers International	6
3. Intersoft Electronics	7
4. Mestdagh	8
5. Microtherm	9
6. Slabbinc	10
7. Ets. F. Verdeyen	11

## MICROTHERM NV

---

Industriepark Noord 1  
B-9100 Sint-Niklaas  
Tel. ++32 3 760 19 80  
Fax ++32 3 760 19 98  
[www.microtherm.uk.com](http://www.microtherm.uk.com)  
[jeroen.goetschalckx@microtherm.be](mailto:jeroen.goetschalckx@microtherm.be)

**Delegate:**

**Jeroen Goetschalckx,  
General Sales and Marketing Manager**

### **Activities:**

We are the world's leading manufacturer of microporous insulation and passive fire protection systems. Our materials are designed for high temperature applications but can effectively be used at temperatures ranging from -200 to +1200 °C for continuous use.

They are fiber free and environmentally safe to use. Organic content is less than 1 %. We design and engineer custom made insulation solutions for a wide variety of applications and industry segments: Steel (Ladles, torpedocars, tundishes, blast furnaces), various other base metals (aluminium, copper, zink, etc..), furnace builders in general, railway (exhausts, fire protection), automotive (exhausts), aerospace (engines), nuclear power stations, storage heaters, turbines, petrochemical (pipes, furnaces), autoclaves, marine and navy ships (exhausts, fire protection) and more.

## Stained-glass Studio MESTDAGH

(Kunstglasramen Mestdagh)

Koolsteeg 22

B - 9000 Gent

[sal-exp@deboer.be](mailto:sal-exp@deboer.be)

**de boer**

waterproofing solutions

### Delegate:

**Oliver Verdickt,  
Quality Assurance Engineer**

### Activities:

De Boer Waterproofing solutions is a specialized manufacturer of modified bituminous membranes since 1922. De Boer has been exporting to the Asian region since 1989. In a competitive market de Boer is able to offer uniquely modified bituminous membrane compositions that provide an answer for new and renovation projects.

We assist our local partner with commercial and technical support on the spot and this through our Asian representative office in Thailand. De Boer has numerous project references in Asia and is now looking for business opportunities in South-Korea.

We have system designs for the following applications: underground-, fire-retardant-, landscape area-, bridge deck- and roof waterproofing.

## DIAMOND CENTERS INTERNATIONAL NV

Suite 4 & 502 Diamond Bourse,  
Pelikaanstraat 78  
B - 2018 Antwerpen

Fax ++ 32 3 225 2749  
[www.dci.be](http://www.dci.be)  
[norbert@dci.be](mailto:norbert@dci.be)

### Delegate:

**Norbert A. Streep,**  
**CEO & President**

### Activities:

Diamond Centers International, a 5th. generation family business, with a tradition of excellence since 1876, is based in Antwerp's Diamond Bourse, the hub of the world's diamond industry.

DCI sells to Diamond Dealers, Jewellers and Jewellery Manufacturers the world over. USE DCI's as your buying office to get any type of Diamond at the lowest possible prices.

We supply diamonds that have been carefully sorted and selected by a team of accredited and motivated professionals, who use the latest in electronic resources, to ensure that our customers receive the best merchandise at the lowest price specific to their requirements. You order what suits your requirements best; either calibrated in mm. or straight weight sizes, without having to pay a surcharge.

## INTERSOFT ELECTRONICS NV

Lammerdries 27  
B - 2250 OLEN  
Tel. ++32 3 14 231811  
Fax ++32 3 14 231944  
[intersoft-electronics.com](http://intersoft-electronics.com)  
[johnny.zeven@intersoft-electronics.com](mailto:johnny.zeven@intersoft-electronics.com)

### Delegate:

**Johnny Zeven,**  
**CFO-Marketing Director**

### Activities:

Intersoft Electronics offers a wide range of high quality control tools for Surveillance Radar Systems: equipment for daily use as a radar display, monitoring and maintenance instrument (RASS-M); radar analysis support systems for a top-down analysis of the complete radar system (RASS-S); radar environment simulators (RES) creating a very realistic environment for the radar, thus avoiding expensive testflights. These limited sized systems, driven by a user-friendly software toolbox, are invaluable instruments for Factory and Site Acceptance of the Radar systems, help to carry out a thorough periodic check-up and function as a perfect daily monitoring tool for every radar engineer. They therefore increase the radar's efficiency and lifetime at low cost. The Intersoft Engineers can also assist in radar assessment campaigns and through training sessions provide enough background for you to acquire all the skills and experience necessary to develop a complete radar quality program.
