Affairs

NUTRICAN INC

Segment: Agri-food

Website: <http://www.nutricaninc.com>

Plant Certifications: HACCP;

Product Certifications: N/A

Currently Doing Business with South Korea: No

Target Korean Partners: Broker; Importer; Distributor; Retailer; E-commerce Retailor;
Exclusive Distributor;

Company Profile:

Nutrican Inc. has been a premium supplier of natural edible seal oil since 2000. Our head office is located in Markham, Ontario, Canada giving us access to the world's largest seal population that inhabits the cold and clean waters off the Canadian coastline. Our local and overseas third-party "toll service processor" facilities process crude seal oil purchased directly from local suppliers in the region and ship the finished products to the rest of Canada and overseas

Diamond Estates Wines & Spirits

Segment: Agri-food

Website: www.lakeviewwineco.com

Plant Certifications: N/A

Product Certifications: N/A

Currently Doing Business with South Korea: Yes

Target Korean Partners: Distributor;Importer;

Company Profile:

Diamond Estates Wines and Spirits Inc. is a Canadian-owned, publicly traded company and operates a large winery, strategically located in Niagara on the Lake, Ontario. Diamond utilizes state-of-the-art computer-controlled machinery along with years of wine making experience to produce award winning VQA wines from Ontario grown grapes. With 1000,000 sq. ft of production space and over 5 million litres of cooperage, Diamond is well equipped to handle large volume wine production and is ready to expand it's sales further. The size and efficiency of the production facility allows us to be very competitive with pricing.

Diamond has some competitive advantages over our competition, we source grapes from over 25 farming families which provides tremendous flexibility for the winemakers, we are a house of many brands which enable us to offer many options to importers and we are open to producing private label products. Each year we receive numerous international awards for our table wines and Icewines.

Diamond Estates has been actively exporting its wines for over ten years and see numerous opportunities to expand their presence and further grow their business in emerging markets.

Manage My Groceries

Segment: Agri-food

Website: <https://www.managemygroceries.ca>

Plant Certifications: N/A

Product Certifications: BQA- Baker's Quality Alliance; Certified Organic; Gluten-Free; Kosher; NGMO – Non-Genetically Modified; Peanut-Free; Halal;

Currently Doing Business with South Korea: No

Target Korean Partners: Importer; Retailer; Broker; Distributor;

Company Profile:

ManageMyGroceries.ca is a multi-vendor online marketplace providing order fulfillment solutions such as Contactless Delivery and In-store Pickup for food and non-food vendors. ManageMyGroceries.ca was founded in the Spring of 2020 right before the Pandemic started. We're now operating across the GTA and would like to open our online marketplace to all Canadian/International food retailers & manufactures including non-food manufactures.

What sets us apart is that our vendor partners pay no onboarding fees or monthly fees. They simply pay a commission starting at 8 per cent for international vendors and starting at 3 per cent for Canadian vendors. However, what differentiates us from our competitors is that our customers can choose to increase their commission fees as away to add new ManageMyGroceries.ca services or if they like their commission rate they can add a monthly fee as a way to keep their commission the same.

We have been working with this model so far with Ontario vendors and they have been very pleased with our service.

EVERICH IMPORT & EXPORT INC

Segment: Agri-food

Website: N/A

Plant Certifications: HACCP;

Product Certifications: N/A

Currently Doing Business with South Korea: No

KONZELMANN ESTATE WINERY

Segment: Agri-food

Website: <https://www.konzelmann.ca>

Plant Certifications: N/A

Product Certifications: N/A

Currently Doing Business with South Korea: No

Target Korean Partners: Importer;Retailer;Distributor;Exclusive Distributor;E-commerce Retailor;

Company Profile:

Konzelmann Estate Winery is one of Canada's oldest and most respected producers of fine wines . Proprietor Herbert Konzelmann is a fourth generation winemaker with over 50 years of experience. Our extensive catalogue of products reflects the simple philosophy that he has developed over the years. : produce an excellent wine for every persons taste at an exceptional value. This idea influences everything we do from the treatment of our soil, to the way we manage our vines and the winemaking process itself.

Konzelmann has two Niagara-on the-lake vineyards each with very different characteristics. Our lakefront vineyard features limestone soil with natural wind rotation, perfect for White Wines, Icewines and lighter reds. . Our East West Line and Highway 55 property is only minutes from our winery and sits on clay soil, which produces our bolder , earthier Reds. Having two unique vineyards allows us to produce each our varietals in optimal growing conditions.

Every grape used at Konzelmann is grown locally and every bottle of wine is crested with the VQA logo. This is a certification given to wines that are produced with 100% Ontario grown grapes and have gone through strict quality assurance testing .

Konzelmann has received more "Best Value' Wine Awards than any other winery in the last decade. Konzelmann is one of Canada's most awarded mid sized wineries and is the proud recipient of Canada's only placement on the Wine Spectators Top 100 List. For the last 5 years Konzelmann has been ranked among Canada's Top 5 wineries on Trip Advisor.

Please let us know if we need to provide you with any further information to complete the application for Konzelmann.

Non-Food Consumer Goods

Ontario Supplier Directory

Daneson

Segment: Non-food Consumer Products

Website: www.daneson.com

Plant Certifications: N/A

Currently Doing Business with South Korea: No

Target Korean Partners: Retailer; Distributor;

Company Profile:

Our toothpicks are made with kiln dried, veneer quality, northern white birch from the USA that we bathe in premium ingredients. We use natural essential oils and good things, like, Islay single-malt scotch, and Kentucky straight bourbon to imbue our toothpicks with truly distinct flavours. Each blend is akin to a fine spirit or taste experience, distinguishing a Daneson from what one would expect from a toothpick. This focus on the provenance and quality of toothpicks has led to Daneson working with top retailers, restaurants, and hotels globally. Daneson has received accolades from titles such as: GQ, Uncrate, Monocle, Sharp, Hypebeast, Cool Material, Bon Appetit, and many more. We're a family business that's based in Canada, striving to work exclusively with other North American family companies. Everything that goes into Daneson is sourced this way. Albeit our Islay single malt is from Scotland, and our corks from Portugal. Daneson is committed to protecting the world in which we live. That's why for every one tree used, we replant another hundred trees with a priority towards non-harvest regions. Give more than you take. It's that simple.

The process begins with sketches, extensive market research, prototyping, testing, and finally creation through sustainable practices. We take great pride not only in the outstanding quality of our products but in the environment in which they are made. Each item is made in ethically and socially responsible ways by our skilled artisans around the world. Our Minimal natural fiber bento box has won the Eco Choice Award - Most Innovative from NY Now 2018!

Nutrition Plus Products Inc.

Segment: Non-food Consumer Products

Website: www.nutravite.com

Plant Certifications: N/A

Currently Doing Business with South Korea: No

Target Korean Partners: Broker; Importer; Retailer; Distributor; Exclusive Distributor; E-commerce Retailer;

Company Profile:

Nutrition Plus Products Inc. is a Canadian company focused on Natural Health Products for the Canadian, US and Hong Kong markets. Originally founded by the well-known late Canadian pharmacist Sam Ibrahim, the company continues to grow under the leadership of his son Farid. Market leading products include Kardovite Dietary Supplements for circulation, Nutravite Joint Cream with Glucosamine/MSM, and Nutravite Fish Friends Chewable Omega 3.

Nutrition Plus uses third party fabricators, but sources its own ingredients to ensure quality and cost competitiveness. Thoroughly familiar with the Canadian manufacturing landscape, Nutrition Plus has established relationships with manufacturers of tablets, capsules, soft gels, tinctures, creams, and powders. There is not a product or ingredient we are not able to source! Our company structure is highly streamlined, allowing us to be cost competitive with a high level of customer service.

All third-party fabricators manufacturing Nutravite or other branded products undergo a quality audit before they are selected. Canadian regulations for Natural Health Products require all manufacturing facilities to be GMP compliant. A government Site License is issued to manufacturers once they have proven GMP compliance, and they are not allowed to operate without it. Nutrition Plus owns all of its formulas and product licenses from Health Canada. All ingredients we supply are tested by us before they are used in production.

Due to a familiarity with regulatory compliance and pre-market product approvals, plus a thorough understanding of logistics and customs clearing, Nutrition Plus has successfully registered products and built significant business in difficult jurisdictions. Nutrition Plus has developed relationship with several freight forwarding companies, enabling smooth and cost-effective shipment of products to overseas locations. All Nutravite products come with Canadian Natural Product Numbers (NPNs), ensuring consistent high-quality product.

Refine Naturals (Natural Health Product Brand of Concept 2 Clinic Inc)

Segment: Others

Website: www.refinenaturals.com/

Plant Certifications: N/A

Currently Doing Business with South Korea: No

Target Korean Partners: E-commerce Retailor; Distributor;

Company Profile:

How we started?

Our story began with Dr. YC Lee, PhD, the founder of Refine Naturals™. As a dedicated pharmaceutical scientist with more than 30 years of research experience under his belt, he was disheartened by the confusion one faces while choosing a Natural Health Supplement. Thus, began the journey of creating Refine Naturals™.

YC's early career focused on neuroscience and peaked with the successful development of fluoxetine (Brand name: Prozac) as the first US FDA approved antidepressant medication. When it comes to brain health, YC understood the importance of prevention. Consequently, he envisioned Refine Naturals™ with four cornerstone natural health supplements on Stress, Sleep, Mood and Memory.

What does Refine Naturals™ mean to you?

Refine Naturals™ is a scientifically-led supplements brand that knows how to transform natural ingredients into clinically-proven results. In a category based mostly on faith, our products have proof.

All ingredients are chosen based on data with strong scientific evidence while carefully considering different aspects of proofs from: clinical study design, statistical significance testing, and appropriate clinical outcomes.

At Refine Naturals™, naturally-derived ingredients have been chosen diligently so that they work in tandem to amplify effectiveness through multiple yet synergistic mode of action.

Shoosha Inc.

Segment: Non-food Consumer Products

Website: www.shoosha.com

Plant Certifications: N/A

Currently Doing Business with South Korea: No

Target Korean Partners: Importer; Distributor; Retailer; E-commerce Retailor; Exclusive Distributor;

Company Profile:

Shoosha is the first complete USDA-certified skincare line in North America. Pure, organic and true, SHOOSHA Baby is a 100% certified organic skincare line created to nourish and soothe your baby's sensitive skin.

But we didn't want to stop there. All our products are also free of GMO's, Gluten, Dairy, or Corn ingredients and have no hidden ingredients or fragrance. There is not 1 synthetic or chemical ingredient in any of our products.

In fact, our products are so pure you could eat anything in the line. It's literally, Organic food grade Certified. It's the only baby skincare line that can sit in the grocery aisle, and the skincare aisle in the supermarket. As your baby's skin is 30 times thinner, more porous, and still developing for the first year of life, our commitment to protect baby's delicate skin is consistent across all product lines.
