SKIN CARE & BOTANICALS

THE COLLECTION

# Some say my story began

WITH 4000 LAVANDULA SEEDINGS.

I believe that my wonderful childhood memories have already guided me towards a very special path. I have embarked on a magical journey with my family at an early age as we were looking after our bees, or when I was trying to keep my tiny garden weed-free next to my mother's large one. The love of nature has always been close and dear to my heart.

One day I announced to my parents that I will have my very own lavender plantation. This is when I became the proud owner of 4000 lavender seedlings. It was a call that has changed my life forever. Prior to this purchase I was already seriously thinking about what would I like to achieve with these splendid herbs. I decided to learn more about creating organic and natural skin care products in England and Hungary. I wanted to know everything about their origin, the story and the myths that surrounded them and their production. I ended up studying the secrets of aromatherapy.

**MAR GALLITI**  
SKIN CARE & BOTANICALS

I wanted to pay homage to my mother with the brand name. **MAR GALLITI** means daughter of the sea, child of the light.

Living a healthy lifestyle was already a big part of who I was then, and who I am today. I became a vegetarian at the age of 18 due to health issues, which introduced me to a whole new world and point of view. I have learned a great deal over the course of these years; not only did I get to know myself better, but also realized the values that are important to me.

I have always enjoyed the beauty of a magnificent garden, but was unsure whether I would be able to create such a wonder. I grew up in the countryside, where I was surrounded by nature and animals at all times. I developed a strong bond with these creatures and cherished the fun times with chickens, ducks, pigs, dogs, cats and bees. We even had a fawn for a few months once! This interaction reached its peak when I began horse riding. Creating the unique connection between a horse and its rider requires a lot of work, patience, special attention and understanding. Both parties have to put in a lot of effort to make it work. This was one of my core inspirations, when I was envisioning this brand.

I am grateful to be able to share with you my creations. I can only hope that my magical world will take you on a lifelong adventure!

Sincerely, Gyurokovics Zita

# SKIN CARE

By harnessing the treasures of nature, I have created this product line for those special moments when it is all about you. We spiced up these products with true essential oils, which allow them to possess an exclusive scent. Feel their power and let the therapeutic experience take over!

## RESTORATIVE SEA BUCKTHORN CLEANSING BALM

It deeply cleanses the skin by removing impurities and makeup. The best quality Shea butter is enhanced with special soothing oils, such as calendula, sesame or borage oil. Besides containing all that goodness, it gets its beautiful colour from the sea buckthorn extract. Their synergistic effect not only cleanses, but soothes the irritated, dry, and possibly burnt skin on any part of the body. Its subtle feminine fragrance will invigorate your senses.

## ENZYMATIC EXFOLIATING POWDER

It gently removes dead skin cells with pineapple fruit enzymes and mechanically exfoliates the skin with hibiscus flower. At the same time the blend moisturises your skin with the aloe vera and coconut milk powders it contains. The Moroccan red clay helps to clear surface build-up and impurities, improves the texture of the skin and regenerates it thanks to its rich mineral content.

## BLUE POPPY BALANCING MOISTURIZER

Our kind of revitalising moisturizer. It all comes down to my favourite trinity; the light, yet deeply nourishing sesame oil, the blue poppy seed oil with every essential fatty acid and the regenerating Marula oil. They represent the core of this elixir. The blue yarrow essential oil gives a pop of color, which is enclosed in a splendid bouquet of lavender, blue chamomile and Atlas cedar essential oils. The Acemella extract, which is also called a natural botox, together with a marine algae extract, that stimulates production of structural skin proteins and increase collagen synthesis, offers more than a little extra care for the tired, dull skin.

## YOUTH ELIXIR OIL SERUM

Nourishes and tones. It gives back the skin's natural tone and hydration. The synergy of fast absorbing precious oils contains the antioxidants, vitamins and Omega 3 and 6 fatty acids. The skin's resistance will be enhanced against harmful environmental impacts, while it will keep the skin looking young and healthy. The active ingredients of moringa and passion fruit oil will nourish and protect the skin, as well as tone and soothe with the help of the lavender and chamomile essential oil.

## WITCH GARDEN TREATMENT ESSENCE

It is a very special hydrating, protecting and collagen boosting formula. A unique synergy of rare aromatic hydrosols - witch hazel, immortelle, yarrow, cornflower, sandalwood, white champaca and bergamot - will enchant your senses while soothing, anti-inflammatory and gentle on your skin. We chose a blend of plant extracts to illuminate, brighten and act against environmental stress while stimulating collagen synthesis.

## AMBROSIA HONEY MASK

This sublime rejuvenating mask acts as a gentle brightening treatment and a hydrator that visibly plumps and firms the skin. To make it all happen we added the most beautiful local raw lavender honey as a base for its superpower antibacterial properties and skin-saving antioxidants that can regain your glow.
