

Medical Taiwan 2026: Innovating Wellness

As Asia's leading platform for healthcare and medical technology, Medical Taiwan 2026 brings together global innovators and industry leaders. Centered on three key themes — 'Innovative Long-Term Care,' 'Medical Supplies Gallery,' and 'Smart Medical' — the exhibition offers an unparalleled opportunity for manufacturers, service providers, and startups to showcase innovations, strengthen brand presence, and expand across Asia's dynamic healthcare market.

2025 Facts & Figures

98% of International visitors left the show highly satisfied

“
The exhibitors here are truly excellent. I was especially impressed by their ability to communicate effectively in English, which made the experience very smooth and welcoming for international visitors. The products on display are of exceptional quality, making this a top-tier event.
— Head of Procurement at a Leading French Medical Equipment Supplier and Rental Firm

“
As a first-time visitor, I was genuinely surprised by the remarkable variety and innovation on display. The range of products is truly impressive, offering unique and interesting solutions that have inspired me to think about new possibilities for my customers.
— Industry manager representing a German assistive solutions company
