# Who we are

We are a Polish family company with many years of history and extensive experience.

In both our private and professional lives, we are guided by professionalism and creativity.

Our most important goal is to meet our customers' expectations.

# What we do

1

We produce scourers, cloths, traditional mops, flat mop refills, and other household products.

2

We focus solely on production. The quality of the goods we offer is our top priority.

3

We work individually with our partners, offering various business models.

Sale as a bulk offer

# Sale under Private Labels – Comprehensive Service

Comprehensive service means working closely with a business partner from collecting specific guidelines to delivering the finished goods.

- Do you already have your own brand and are looking for the right products?
- Do you want to add a new product to your existing product line?
- Do you want to save time and focus on other matters in your company?

Provide us with specific logistical guidelines and tell us about your project or idea — we will take care of the rest. We will prepare a budget and the desired packaging options for you and send the final product to the address you specify.

# Sales of products under the WOBA brand

This model involves the production of our products and their packaging according to the customer's specifications, including labeling, foil wrapping, or cardboard boxes featuring our company's graphics.

- Don't have your own brand?
- Don't want to invest time or money in building a brand but want to start the sales process quickly?

This model is designed just for you!

# Sale as a bulk offer

This model is the most cost-effective way to acquire our products. It is designed for companies that want to handle individual packaging internally.

It allows you to purchase unpackaged products in bags or large boxes. We will deliver them to the address you specify on the agreed date.

**Regardless of the cooperation models we offer,  
we are open to other proposals from our  
partners!**
